SUMMARY

Experienced frontend developer with a solid foundation in creating dynamic and responsive web applications. Proficient in React.js, Tailwind CSS, HTML, CSS, JavaScript, and other frontend technologies. Strong in solving problems, designing, and working with others. With four years of experience, I am eager to transition into full stack development. Looking for an exciting position to craft innovative web solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS

Frontend Frameworks: React.js, Next.js, Tailwind CSS, Antd

Backend Frameworks: Node.js, Express

Databases: MongoDB

Tools and Libraries: Context API, Framer Motion, Git

EXPERIENCE

Frontend Developer(SDE-2)   Oct 2022 – Feb 2024
Tyroo Technologies   *Gurugram, India*
- **PIN Genie**: Developed a canvas rendering engine with fabricjs and React.js, enabling users to create templated pins effortlessly by entering a webpage URL.
- **Team Collaboration and Leadership**: Led a cross-functional team of 5 engineers, providing guidance and mentorship. Conducted rigorous code reviews, promoting code quality and adherence to best practices.

Frontend Developer(SDE-1)   Jan 2020 – Sep 2022
Tyroo Technologies   *Gurugram, India*
- Key contributor to Vidtech.ai, a web application designed for streamlined advertisement creation at scale on leading platforms, including Snapchat and Facebook.
- Led UI/UX design and development efforts, ensuring a user-friendly interface that enhances efficiency in ad production.
- Explore the Vidtech.ai platform at https://hub.vidtech.ai/.

Frontend Developer   Sep 2019 – Jan 2020
Nexcode Software   *Gurugram, India*
- Worked on Noustack (A Social Media for candidates and recruiters).
- Developed UI, integrated restful apis and used redux state management tool.
- Explore the platform at https://www.noustack.com

PROJECTS

Web Portfolio   June 2024 – June 2024
Fullstack Project   *React.js, Next.js, Node.js, Express, MongoDB, AWS, Firebase*
- Built a portfolio website using Next.js, showcasing various projects and a blog.
- Created a backend for the blog, deploying it on AWS EC2, with images hosted on S3 and APIs built using Node.js, Express, and MongoDB.
- Deployed the frontend on Firebase, ensuring seamless integration and performance optimization for an engaging user experience.

Reckitt Udaan (Reckitt Benckiser, Gurugram)   Jan 2022 – Aug 2022
Frontend Project   *React.js, Antd*
- Created a micro website that modernized loyalty programs within the FMCG industry.
- The platform enabled seamless reward redemption based on accumulated points and purchase values.

EDUCATION

Maharaja Agrasen Institute of Technologies, Delhi India
Bachelors in Computer Science *Aug 2015 – May 2019*
